

Wrimatic A3 Tablet

Recognising a need for a large robust and reliable writing tablet, Ferco developed the Wrimatic™ writing tablet in 1996 and subsequently obtained worldwide patent rights.

Its unique design employs a triangular prismoid swivel joint which permits the stowing or un-stowing of the tablet in one smooth continuous action.

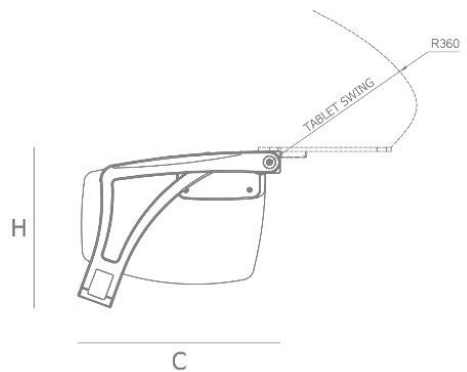

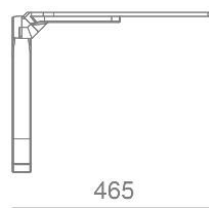

The elegance and simplicity of the mechanism contributes to it's beauty complimenting all seating. Created using aeronautical technology the award winning Wrimatic™ A3 is the ultimate tablet in size, function and strength - and is tested to a load bearing of 240kg.

Incorporated into our extremely comfortable lecture theatre seating, the A3 tablet is large enough for full size ring binders, course notes or laptops.

Widely acknowledged as the world's leading integrated writing tablet.

DIMENSIONS	
H	C
365	465

- Large A3 writing surface
- Suitable for left-hand use
- Load tested to 240kg
- Made from ABS plastic for impact resistance and toughness
- Lightweight and unbreakable
- Resistant to sunlight and temperature
- Maintenance free stainless steel joint
- Opens in one continuous fluid motion
- Power and data available
